Data Center

## ENERGY EFFICIENCY CERTIFICATE

The Certified Part, has via EnergyWheel classification, achieved an Energy Efficiency A-Rating

CERTIFICATE IS ISSUED TO

### GlobalConnect

CVR NO. 26759722

This certifies that GlobalConnect has completed energy optimization projects, which have been documented by eoptimo and verified.

Period of documentation and accounting: **01.01.2018 to 30.06.2019**

energy efficiency rating **A** on Data Centre project

Reduced amount of CO<sub>2</sub>  
**572 tonnes**  
based on 2.776.214 kWh in  
documented energy reduction

This equals to the annual  
CO<sub>2</sub> absorption of  
**50.476 trees**

Area of verification is: Optimization of Data Center IT installations

Including servers, storage, network, UPS and cooling infrastructure.

This certificate serves as a final document, to display the obtained reductions from the energy reports approved by the Danish energy companies, according to decree no. 1452.

*Reduced CO<sub>2</sub> footprint is based on 0,000206ton per reduced kWh - source Energinet.dk*

Certificate is issued by: e|optimo
